

BidHub Announces Move to New Headquarters

New Facilities Offer Many Advantages

Huntley, IL – April 2006 – BidHub, Inc., the premier provider of hosted bid-management solutions to the construction industry, today announced its move to new headquarters. According to company President Mark Rigby, the move brings with it three significant advantages.

“First and foremost, the larger office provides us with plenty of room to grow,” says Rigby. “We’re also closer to Chicago and to Interstate 90.” This makes the commute easier for existing employees and will also help the company in attracting new employees to accommodate its growth. This location furthermore provides Bidhub’s customers with much easier access.

“Finally,” adds Rigby, “being in McHenry County now, we’re surrounded by a truly booming construction business. This means we can really have our finger on the pulse of what’s going on in the industry.” According to Rigby, McHenry County is one of the fastest growing areas in Illinois. He also points out that three major developers – Centerville Properties, Pulte Homes, and Del Webb – actually share the same office building with BidHub.

The new BidHub headquarters are located at 12535 Farm Hill Drive in Huntley, IL. The company’s phone number has been changed to 847-458-3600.

About BidHub

BidHub is a leading application service provider (A.S.P.) that provides a gateway and opportunity for General Contractors, Homebuilders, and Subcontractors to manage efficiently and cost effectively Commercial and Residential projects. Created by industry professionals, BidHub’s web-based tools allow Subcontractors to receive bid invitations, submit bids on projects, and obtain digital or printed versions of architectural plans and specifications. Homebuilders and General Contractors have the ability to organize their Subcontractor databases, receive and view online bids (sorted by CSI code), and award multiple contracts. BidHub gives its users the tools to manage the entire bidding process with luxury and ease without having to purchase expensive software or hardware.
